MISSION

It is the mission of Foothills Community Christian School to assist parents in providing a Christ-centered education that values exceptional academics, strong moral character, and service to others

OBJECTIVE

The Enrichment Academy of FCCS is designed to meet the varied social and educational needs of the Christian School family by offering a flexible program in a Christian Environment.

STAFFING

Foothills Community Christian School has a staff of home school resource personnel. The Enrichment Academy Coordinator, Mrs. Kristy Hutchison, has her degree from the University of Wyoming and currently she and her husband home school their four children. The Head of School has personal and professional knowledge of home schooling, home school resource materials, and support group information.

OVERVIEW

Our program allows parents to teach their children at home and supplement the child's social and academic needs at FCCS. We provide an opportunity for the mother to have private preparation time in our one-day-a-week- program.
